

P-SERIES PLATFORM RACK

LOWER. LIGHTER. STRONGER. QUIETER.

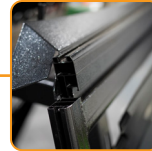

Next Gen Fully Welded Platform

Seamless aluminium construction - no bolted joints.

Accessory Channels on All Sides

Universal fitting for Tracklander and 3rd Party accessories using common hardware fasteners.

Easy Access Cable Management

Removable end caps for access to concealed protective channels for wiring.

LOW PROFILE - FROM 55MM

Sits close to the roof for reduced drag, improved clearance and cleaner aesthetics.

LIGHTWEIGHT ALUMINIUM

Optimised weight without compromising strength. Carry more, safely.

BULLETPROOF CONSTRUCTION

Maximum strength in a slatted platform format with 50 years of tried and tested off road performance.

WHISPER QUIET TECHNOLOGY

Tracklander wind deflector system minimises wind noise and drag.
